INPRO/SEAL ANNOUNCES LOCAL WINNER OF THE 2016 DOVER SONS & DAUGHTERS SCHOLARSHIP PROGRAM

Rock Island, IL – Inpro-Seal announced today the name of the local winner of the Dover Sons & Daughters Scholarship Program. The Dover Sons & Daughters Scholarship recognizes outstanding high school seniors and current college students who are the children of Dover employees and who have demonstrated excellence through their academic record, test scores, leadership abilities and through their extracurricular activities and work record. Awardees may receive up to \$10,000 in undergraduate scholarship support contingent upon maintaining academic and program eligibility. Now in its fifth year, this program has made 193 awards approaching \$1.2 million in scholarship support.

Victoria “Tori” Cole is a recent graduate of Muscatine High School, where she not only excelled in academics but in supporting and being a part of her community. During her High School years, Tori was a member of the National Honor Society, Spanish Club, and Show Choir. She took part in her High School’s volleyball team and the Pearl City Power traveling volleyball team. In her spare time she could be found taking part in community activities, such as assisting her mother in coaching her sixteen year old sister’s traveling volleyball team, and spending many hours volunteering in the Day of Care community assistance program through her High School. When Tori begins college at the University of Iowa, she plans to get on the Pre-Med track, majoring in Psychology and minoring in Spanish. In addition to the Dover Scholarship, Tori has received a substantial four year scholarship from the University of Iowa for her high GPA and ACT score. Tori is the daughter of Christine Cole of Inpro/Seal in Rock Island, IL.

About Dover:

Dover is a diversified global manufacturer with annual revenues of approximately \$7 billion. We deliver innovative equipment and components, specialty systems and support services through four major operating segments: Energy, Engineered Systems, Fluids, and Refrigeration & Food Equipment.
